

Re: June 2, 2003

Register my voice as one of the majority of Americans who do NOT want any further consolidation of media ownership in my country. I neither support the increased "dumbing-down" of radio and television (as well as print media) that has come with increased corporate greed, nor am I prepared to accept increased control by the wealthy and powerful minority over the information resources and raised voices of the REAL America.

Thank you.

Paul Jenny
